**Program Administration** – Develop, implement and adjust the program structure including budget, policy/procedures, reports, assessment for the following programs: Outdoor Program, Challenge Course, Rock Climbing Wall, Equipment Rental and the Search and Rescue Team

1. **Manage Programs** (Outdoor Program, Challenge Course, Rock Climbing Wall, Equipment Rental, and the Search and Rescue Team)
  - Ensure appropriate level and variety of programs and experiential opportunities to meet the needs of the campus community in conjunction with educational development programs.
  - Plan, publicize, coordinate and evaluate all aspects of programs to ensure comprehensive, successful and varied student experiences
  - Provide administrative oversight and structure for the Search and Rescue team. Build unity, recruit and train student team members, facilitate a team approach, build relationships with mutual aid agencies, function as liaison with Pueblo County Sherriff Emergency Service Bureau staff, participate in and promote communication with other Pueblo County teams, contribute to the planning and implementation of annual CSU-Pueblo SAR Academy.
2. **Policy Formulation:** Review relevant theories, concepts, and principles in order to implement best practices and current programming; develop, implement and clarify operating policies and procedures
  - Assist program areas with design and development of strategies, systems, processes, guidelines, rules, and standards to ensure successful implementation that meet identified needs
  - Discuss relevance and clarify operating policies and procedures to ensure they are followed and adjusted as necessary
  - Recommend changes regarding department policy, procedures, and staffing policies to ensure efficiency and effectiveness
  - Investigate and analyze options resulting from new ideas, study impact of anticipated change, develop methods to implement changes or cuts to programs or activities
  - Introduce and clarify new guidelines and procedures
3. **Risk Management:** Assist program areas in developing and implementing safety standards using nationally accepted practices and procedures
4. **Budget:** Manage, monitor and analyze ongoing budget of four program areas (Outdoor Program, Challenge Course, Rock Climbing Wall, Equipment Rental, Search and Rescue Team);
5. **Program Evaluation:** Collect, compile and analyze data, identify trends and concerns, recommend changes based on findings
  - Evaluate available data and apply appropriate guidelines
  - Assist Director with assessment for overall department evaluation
  - Support Student Recreation program areas in developing and implementing assessments

### **Management of Student Recreation Center**

- Assist Director of Student Recreation in overall management of the Student Recreation Center and its affiliated programs to ensure the highest quality and success of programs.
- Serve on committees, planning teams, building supervision, staff training events and other essential events

### **Staff Development**

2. **Personnel Management:**
  - Recruit, hire, train, and evaluate student employees and provide professional development as appropriate
  - Assist with selection, training and supervision of Student Recreation Center professional staff.
  - Assist with the planning, evaluation, and implementation of Student Recreation Center staff training when appropriate.
  - Recommend changes in staffing that will address performance concerns or enhance programs
3. **Relationship Management:**
  - Motivate and inspire student staff through leadership, mentoring, and collaborative program development.
  - Share, discuss, and problem-solve relevant staffing issues with professional staff
  - Mediate and resolve disputes with clients, students & staff
  - Instructed students in the Outdoor Leadership classes (land, water & challenge course).
  - Provided ongoing feedback to students on technical skills, facilitation techniques.
  - Managed logistics for land and water based field experiences.
  - Developed and Implemented risk management pre plans and field response.

**ADDITIONAL WORK EXPERIENCE**
